Applicant Information (continued):

Reason for applying:

I have been involved in Private Property Rights for over 25 years. Being especially concerned with water rights for the individual property owner.

I attended most of the meetings and provided input when the County of Santa Cruz was rewriting the County Well Ordinance from late in 2004 to 2009.

I attended most of the Mid-County Groundwater Stakeholder Group Meetings from 2014 to 2016.

I have been involved with CRLU (Citizens For Responsible Land Use) which was successful in stopping the County of Santa Cruz from initiating a very large and onerous County Wide Trails Plan that would have put Public Trails on many private land owners properties.

As an active Real Estate Broker selling property all over Santa Cruz and Monterey Counties for over 37 years I believe that I have unique qualities that I can bring to the table. I have been involved in the sale of many properties that had or required wells and septic systems.

My wife and I purchased 68 acres behind Scotts Valley in 1977. We had a well drilled, septic installed and built our house on those 68 acres. We raised our family on this property with our kids going to Scotts Valley Schools. We still live on this property today.

Thank you for considering my application.

Sincerely,
Nick Vrolyk
