SANTA MARGARITA GROUNDWATER AGENCY OFFERS SECOND SESSION OF GROUNDWATER STEWARD PROGRAM

YOUTH AND YOUNG ADULTS CAN PARTICIPATE IN THE FREE, ONLINE PROGRAM

(SEPT. 21, 2020) SCOTTS VALLEY, CA — The Santa Margarita Groundwater Agency (SMGWA), formed in 2017 to comply with California’s new Sustainable Groundwater Management Act, is launching a second session of Groundwater Steward Program for high school students and young adults interested in careers in governance, environmental management, environmental science

The fall semester of the program will explore how geography and geology relate to groundwater and groundwater-surface water interactions, and also highlights the interdisciplinary nature and sociopolitical components of environmental management. Students will learn about how SMGWA is currently developing its Groundwater Sustainable Plan, which aims to educate and engage with the public to set specific criteria upon which groundwater management will be based over the next 20 years.

The program will primarily be conducted online through Google Classroom. In the culminating activity of the Groundwater Steward Program, students will take on the role of a water manager through game play. Students will experience the challenge of balancing the conflicting needs and requirements of all users, in addition to the variables of future growth and climate change.

The fall semester of the program is open to students and community members who are high school-age through young adults. Participants will be entered into a drawing for prizes upon completion of the program. Also, some students may be eligible for school credit for completing the full program. The commitment is about 10 hours. To participate, email kelly.groundwater@gmail.com or call 831-600-1901.

ABOUT SANTA MARGARITA GROUNDWATER AGENCY

The Santa Margarita Groundwater Agency (SMGWA) is a joint powers authority comprised of the San Lorenzo Valley Water District, Scotts Valley Water District and the County of Santa Cruz, to oversee the groundwater management activities in the Santa Margarita Groundwater Basin in Santa Cruz County, California. The agency was established in 2017. The Board of Directors of the SMGWA includes two board members from each of the member agencies, one from the City of Scotts Valley, one from the City of Santa Cruz, one from the Mount Hermon Association Community Water System and two well owner representatives. Learn more at www.smgwa.org or on Facebook.
